Revised 06/19/2015

ABOUT THE BRAIN TUMOR FOUNDATION FOR CHILDREN -

Founded in 1983 in Atlanta, GA, the Brain Tumor Foundation for Children helps hundreds of families of children with brain and spinal cord tumors each year by providing financial assistance, social support, and information as they travel an extremely difficult journey. Additionally, Foundation support of research projects helps to improve treatment options and search for a cure.

The Butterfly Fund serves families in eight southeastern states: AL, FL, GA, KY, LA, MS, SC, and TN as well as in the New England area to a limited degree.

The Fund covers basic necessities of life (rent, utilities, groceries, car payments, gasoline, etc.) and items not covered by insurance (certain medical devices & drugs, rehab services, tutoring, etc.) The Butterfly Fund also assists with funeral expenses when parents experience the unfathomable loss of their child.

The Bend Your Knees Foundation is a Georgia 501(c)3 non-profit started in memory of Collins Dixon to raise money to be able to give back to others. Our focus is to spread awareness of Brain tumors in children, support families with a child that has a brain tumor and support other organization that work with children with brain tumors such as the Brain Tumor Foundation for Children.

Angel Babies

A website by Heidi Vawdrey, who lost her daughter, Elizabeth, to Potter Syndrome. She has a downloadable brochure with useful information about carrying to term: prenatal testing, birth plans, delivery, funeral arrangements.

Website: www.angelbabiesinfo.com

Baby Center group: Carrying Pregnancy Despite Poor or Fatal Prenatal Diagnosis

This is a wonderful group of women who carried despite a fatal diagnosis. Most have already lost their babies, but some are still carrying. You can ask them anything about carrying or after.

Website: http://community.babycenter.com/groups/a6711405/carrying_pregnancy_despite_poor_or_fatal_prenatal_diagnosis

Carrying to Term Pages

These pages were written by a mother who carried her daughter, Emily, after she was diagnosed with anencephaly at 22 weeks. She lived for two hours after birth. The pages include Emily's story and advice for carrying a baby - emotions, ways to bond, spiritual needs, baby needs, dealing with other people, birth plans, funeral planning.

Website: <http://webspace.webring.com/people/xt/tabris02/index.html>

Prenatal Partners for Life

Support information and encouragement for carrying to term with an adverse prenatal diagnosis, and support for raising your child with special needs after birth.

Website: www.prenatalpartnersforlife.org

String of Pearls

This website was created by Laura who carried her daughter Pearl to term knowing that she had Alobar Holoprocencephaly. If you are carrying a baby with a fatal diagnosis, she will send you a care package for your baby's arrival including hand and foot molds and a porcelain ornament to stamp your baby's footprint on.

Website: <http://stringofpearlsonline.org>

Waiting With Love

For parents who choose to continue a pregnancy after learning their unborn baby will die before or shortly after birth and for parents who learn their newborn will die soon. Site includes parent letters, resources, and sample birth plans.

Website: www.erichad.com/wwl

Angel Pictures and Portraits

Baby Angel Pics

The Baby Angel Pics Project has been created to donate photo retouching resources to the parents and families of a stillborn baby. Through this free service, our skilled digital artists work with a digital copy of your original, eliminating medical equipment, removing unsightly marks and even replacing the background if desired. Mothers can scan their photos and upload them to us or have a participating retail partner scan them and upload them to us.

Now I Lay Me Down To Sleep

This is the place where the *Now I Lay Me Down to Sleep Foundation* gently provides a helping hand and a healing heart. For families overcome by grief and pain, the idea of photographing their baby may not immediately occur to them. Offering gentle and beautiful photography services in a compassionate and sensitive manner is the heart of this organization. The soft, gentle heirloom photographs of these beautiful babies are an important part of the healing process. They allow families to honor and cherish their babies, and share the spirits of their lives. The Now I Lay Me Down to Sleep Foundation (NILMDTS) administers a network of almost 6,000 volunteer photographers in the United States and twenty-five international countries. At a family's request, a NILMDTS Affiliated Photographer will come to your hospital or hospice location and conduct a sensitive and private portrait session. The portraits are then professionally retouched and presented to the families on an archival DVD or CD that can be used to print portraits of their cherished baby. Our entire network of affiliated photographers graciously donate their time and talents to our families and we are proud to be able to offer our services at no cost.

Portraits by Dana

Specializing in memorial pencil portraits and Angel drawings. I never planned or imagined doing remembrance portraits but after doing my first, I knew this is what I had to do. No matter how hard it was for me to hear of this family's tragic loss, no matter how hard it was for me to draw from the difficult photos, I knew my own feelings couldn't compare to what this family felt each and every day. I love what I do and hope to be able to touch more lives with my drawings.
